**[I] INCREASED. ALL RATES ARE INCREASED.**

<b>TRUNK RATE</b>		
<b>FROM</b>	<b>TO</b>	<b>Rate in Cents per Barrel of 42 U.S. Gallons</b>
Duncan, Stevens County, OK (Plains PL) Ellis Junction, Garvin County, OK (Plains PL, BP PL)	Wynnewood, Murray County, Oklahoma (Coffeyville Refinery)	Base Rate (1) 37.29 Incentive Rate (2) 18.65

**RATES APPLICABLE:**

Rates will be determined as follows:

- (1) When the volume delivered from all origins in a six-month period is equal to, or less than, the Base Volume (as defined below), the Base Rate named herein shall apply;
- (2) When the volume delivered from all origins in a six-month period is more than the Base Volume, the Base Rate shall apply to the Base Volume, and the Incentive Rate shall apply to all barrels in excess of the Base Volume.

The initial six-month period shall begin on the first day of the month in which the Shipper first tenders volumes for delivery, and shall end on the last day of the sixth month following. Each subsequent six-month period shall begin on the day immediately following the end of the previous six-month period.

“Base Volume” shall mean 40,000 barrels multiplied by the number of days in the six-month period; provided, however, that for the initial six-month period “Base Volume” shall be based on the number of days from the date volumes are first tendered for delivery through the end of the initial six-month period.

By way of example, if the Shipper first tenders volumes for delivery on July 4, the six-month period shall commence on July 1 and end on December 31 and the Base Volume for such six-month period shall be equal to 40,000 barrels multiplied by 181 days or 7,240,000 barrels. The subsequent six-month period shall begin on January 1 and end on June 30.

**GATHERING RATE:** The rates named herein are for trunk line transportation only and no gathering service will be performed under this tariff.
